

SUMMARY

- **Award-winning Cartographer, Geospatial Analyst and Visualization Developer** with 80+ recognitions from map competitions and publications, specializing in static and web map design. Skilled in translating complex geographic data into clear, compelling, and visually engaging maps for public and professional audiences.

EDUCATION

University of Wisconsin-Madison (UW-Madison) (Madison, WI; Ongoing)

- **Ph.D.** Candidate in Geography (**Cartography/GIS**); Doctoral minor in **Computer Science** GPA: 3.7/4.0
- Graduate Member in Spatial Computing and Data Mining (SCDM) Lab, UW Cartography Lab (UWCL)
- Teaching Assistant (15 semesters): Cartography, Interactive Cartography & Geovisualization, Graphic Design, GIScience, GIS, Geocomputing, GIS Applications

University of Georgia (UGA) (Athens, GA, USA; 2017)

- **M.S.** in Geography (GIS); Teaching Assistant: Transportation Modeling and GIS GPA: 3.7/4.0
- Graduate Member in Urban Geospatial Analytics (UrGA) Lab, Community Mapping Lab (CML)

Sun Yat-sen University (SYSU) (Guangzhou, China; 2015)

- **B.S.** in GIS (Remote Sensing & GIS Engineering); Excellent Graduate; Excellent Scholarship (3×) GPA: 3.8/4.0
- Undergraduate Research Assistant in Center of Integrated Geographic Information Analysis (CIGNA), Center for Historical Geography, Big Data Communication Lab

EXPERIENCE

- Student Cartographer, **UW Cartography Lab** (2023-Present)
 - Produced static and web maps for 5 client projects spanning history, literature, geology, art; updated lab website
- Cartography Intern, Apple Inc. (**Apple Maps**) (Summer 2025)
 - Proposed a theory-based color refinement, contributed design feedback, and authored 3 internal articles
- Cartography Lecturer (**3×**) and Curriculum Revision Assistant, UW-Madison Department of Geography (2020-2024)
 - Instructed summer Cartography course; upgraded teaching materials (ArcMap to Pro) for cartography courses
- GIS Development Intern, United Nations Development Programme (**UNDP**) (Fall 2021)
 - Developed SIDS Geospatial Dashboard with Mapbox JS, automated vector data processing pipeline with python
- GIS & Visualization Intern, Institute for Local Self-Reliance (**ILSR**) (Spring 2021)
 - Designed 67 independent or series thematic maps with ArcGIS Pro for Community Broadband Network
- App Development Research Assistant, Carl Vinson Institute of Government (CVIOG), University of Georgia (2016-2017)
 - Developed query features for state-gov GIS using ArcGIS JavaScript API, ASP.NET MVC, C#, and SQL Server

SKILLS

- Cartography, GIS mapping: ArcGIS Pro/Online/JS API, Mapbox, Leaflet, D3, MAPublisher, InDesign, Kepler.gl
- Graphic design: Adobe Illustrator, Photoshop, BrickLink Studio, Sony Vegas, Blender, After Effects, AutoCAD
- GIS, spatial analysis, remote sensing: ArcGIS Pro/Server/Engine, QGIS, GeoDa, TransCAD, ENVI, Google Earth Engine
- Programming, development: JavaScript/HTML/CSS, ASP.NET MVC, Java (Android), C#, C++, Visual Basic
- Data analysis, visualization: Python, R, Java, PostgreSQL, SQL Server, SPSSGephi, MongoDB, AWS, MATLAB

PROJECT / GIS DEVELOPMENT (*teamwork)

- Atlas of Irish Traditional Music (Mapbox-based thematic map visualizing place-associated Irish tunes) (2026)
- Climate Visualized (interactive global climate visualization using D3.js; multi-award-winning) (2026)
- United States of Rising Hazards (multivariate geovisualization using ArcGIS JS API; multi-award-winning) (2025)
- Live U.S. Disaster Visualization for Hurricane, Wildfire, and Winter Storm (ArcGIS Online/JS API) (2024-2026)
- *Small Island Developing States Geospatial Dashboard (Mapbox-based web GIS during UNDP internship) (2021)
- Madison Area & Wisconsin COVID-19 Pandemic Dashboard (over 80K visits, 3× on news; multi-award-winning) (2020)
- *U.S Historical Hurricanes Geovisualization (Leaflet framework with jQuery, D3.js, turf libraries) (2019)
- *GNAHRGIS-Ecology (Spatial queries on ArcGIS Server using ASP.NET MVC, with SQL Server database) (2016-2017)
- *Sun Yat-sen University Campus Navigation (Android Application using ArcGIS SDK; award-winning) (2014)

AWARDS & RECOGNITION

- **ICA: 2★** Map on ICC International Cartographic Exhibition (2023, 2025)
- **CaGIS** Map Design Competition: **2★** Winner, **3★** Honorable Mention (2021, 2023, 2025, 2026)
- **NACIS** Student Map Competition: **3★** Winner (2023, 2024, 2025)
- **BCS** Map Award: **1★** Winner, **2★** Highly Commended, **1★** Commended (2024, 2025)
- **Esri UC / Map Gallery: 7★** Features (Plenary Session, MappyHour, Map Art Wall), **6★** Winner, **3★** Finalist (2023-2025)
- **WLIA** Map Contest: **6★** First Place, **5★** Second Place, **5★** Winner of other categories (2024, 2025, 2026)
- **Publication** Inclusion: **4★** Esri Map Book, ArcUser, Atlas of Design (Vol. VII), Cartographic Perspectives (2023-2026)
- **UW-Madison** Digital Salon: **1★** Best in Show, **3★** Honorable Mention, **17★** Admission (2021-2026)
- **Other Competitions: 4★** IIB Award Longlist, **3★** Winner, **2★** Other awards (2014-2025)

PROFESSIONAL IMPACT

- **19★ guest talk:** GIS-Colorado, UC (Colorado Springs) ×2, UW-Madison ×2, SHNU (China), ECNU (China), Glasgow (UK) ×3, Emory ×2, UT-Austin, Macau (China), Messiah, Wisconsin LEGO User Group, HKUST-GZ (China), City of Lawrenceville, British Cartographic Society (2024-2026)
- **5★** maps acquired by **library:** Lib of Congress ×2, American Geographical Society Lib, Robinson Map Lib, UGA Map Lib
- **18★** maps featured on **news** reports (×11, reprints excluded), **TV** news (×2), and online **articles** (×8) (2020–Present)
- **16★** maps on **public display** in libraries, campus, bookstore, museum, GIS Day events in WI, FL, and GA (2021–Present)
- **12★ travel awards** from NACIS, AAG SAM, UW-Madison and Geography Department (2019–2024)
- **Co-Founder** & Cartographer for Shanghai Dérive (2024–Present); Volunteer, Natural Earth (2023–Present)
- Scholarship for CaGIS & UCGIS Symposium, International Cartographic Association (**ICA**) (2024)
- Covid and News Cartographer, MADNEWS (largest local Chinese media platform) (2020–2023)
- 1st Place of Most Downloaded Paper Award; 3rd Place of Best Paper Award, Annals of GIS (3rd author) (2022)

SELECTED RESEARCH

- Multimodal Social Media Data Mining and Visualizations For Hurricane ([AAG 2025](#); [UCGIS Symposium](#)) (2023)
 - Evaluated multimodal CLIP model on Twitter text/images for disaster information extraction and visualization
- Investigating Human Mobility During Pandemic: An Integrated Social Media Approach ([AAG 2021](#)) (2021)
 - Investigated links between socioeconomics and mobility using Twitter trajectories and Facebook connectivity
- Framing Twitter Trajectory Visualization: A Comparative Case Study ([IEEE VIS 2020 “MoVIS” Workshop](#)) (2020)
 - Systematically reviewed methods of trajectory data visualization with case comparison of hurricane and covid
- Adaptive Cartography in Natural Disaster Management: A Domain Gap Analysis ([NACIS](#)) (2020)
 - Conducted gap analysis of disaster mapping, proposing a framework with 3 dimensions and 16 perspectives.
- Flight or Driving? Mining Transportation Mode in Hurricane Harvey Evacuation ([AutoCarto 2020](#)) (2019)
 - Built ML models integrating spatiotemporal and semantics features and visualize transportation patterns
- Examining Spatiotemporal Pattern in Evacuation Behavior during Hurricanes ([AAG 2019](#), [Springer](#)) (2018)
 - Analyzed and visualized spatiotemporal and semantic patterns of Twitter mobility during hurricanes.
